ABOUT US

South Jersey Robotics (SJR) is a 100% volunteer 501(c)(3) nonprofit organization committed to providing opportunities for Gloucester, Cumberland, Camden and Salem County K – 12 students. SJR student participants benefit from our many STEAM programs, camps, and activities. Our mission is to inspire and empower young people to be excited about exploring science and technology through mentor-based programs that build confidence, inspire innovation, develop leaders, and build STEAM skills.

WHAT WE DO

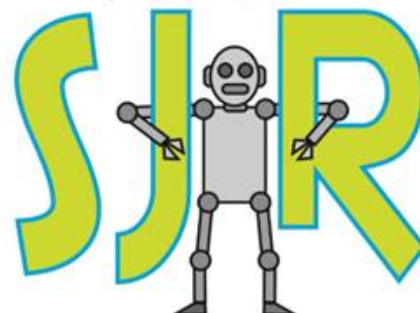

FIRST (For Inspiration and Recognition of Science and Technology) Robotics is a worldwide program that combines the excitement of sport with the rigors of science and technology. With limited resources and an emphasis on our CORE VALUES, teams of students are challenged to raise funds, design a team “brand”, hone teamwork skills, and build and program robots. Teams then meet to play challenging field games against like-minded competitors while adhering to strict league rules.

OUR CORE VALUES

- DISCOVERY** - We explore new skills and ideas
- INNOVATION** - We use creativity and persistence to solve problems
- IMPACT** - We apply what we learn to improve our world
- INCLUSION** - We respect each other and respect our differences
- TEAMWORK** - We are stronger when we work together
- FUN** - We enjoy and celebrate what we do
